

Figure 1 consists of 12 histograms arranged horizontally, labeled x_1 through x_{12} . Each histogram shows the frequency (count) of non-zero elements in the vector x_k . The x-axis for each histogram is labeled x_k and ranges from 0 to 10. The y-axis is labeled 'count' and ranges from 0 to 10. The distributions are roughly bell-shaped and centered around 5, with the peak count increasing from 10 for x_1 to 10 for x_{12} .
